Marco Dong

AI Product Engineer. Agent products, end to end.

Milan, Italy viaimperiale@gmail.com madong.me github.com/EthanITA linkedin.com/in/marcodong-838453

Engineer with **four years delivering software to other people's businesses**, from Salesforce consulting at Deloitte to B2B platform work for Italian energy majors. I currently ship a **production LLM agent inside a regulated wealth manager**, including the evaluation work that decides whether it is safe to release. Alongside that I have run seven freelance engagements end to end, from first conversation to invoice, and hold an MBA. Native Italian, based in Milan.

EXPERIENCE

AI Product Engineer

Moneyfarm · Milan Jul 2026-present

- Build a customer-facing LLM concierge agent for a digital wealth manager.
- Design the evaluation frameworks that decide whether agent behaviour is safe to release in a regulated trading context.
- Work across the AI product team and the platform services underneath it, from the customer-facing app down to trading and pricing APIs.

TypeScript · Node.js · Claude · AWS · Evals

Software Engineer

Klarna · full-time Feb 2025-present

- Maintain the Klarna app, serving over 100M monthly active users.
- Analytics, logging and monitoring across a large mobile codebase.

React Native · Node.js · TypeScript · Datadog · Amplitude

Full Stack Engineer

Independent practice Nov 2022-present

- Delivered to **two individuals, four SMEs and one corporate**.
- Owned every stage myself: first conversation, scoping, pricing, delivery, invoicing and the awkward parts in between.
- Negotiated contract terms directly, including a data-handling clause I refused to sign and had amended in writing.

Vue · Nuxt · Python · Flask · PostgreSQL · MongoDB · Docker

Full Stack Engineer

Indra · contract Apr 2023-Feb 2025

- Core developer on **Onesait Platform**, a B2B product serving major Italian energy companies.
- Built 3 microservices and 3 frontend applications from scratch.

Vue · TypeScript · Docker · Kubernetes · GitLab CI

Salesforce Consultant

Deloitte Digital · full-time Dec 2021-Feb 2023

- Led **Receptionist 2.0**, an enterprise solution digitalising the traditional work of receptionists.
- Managed the gradual rollout across multiple client branches, working with the people whose daily job the software changed.

Salesforce · Atlassian · JavaScript

SELECTED WORK

LexSA

lexsa.ai Nov 2024-Mar 2025

An AI assistant helping tax professionals resolve fiscal queries. Built the retrieval, the agent orchestration and the product around them.
